Knowledge acquired

- Administration and management of a business or any other type of organization, with an understanding of its competitive and institutional position, while identifying its strengths and weaknesses.
- Integration in any functional area of a multinational or large company or organization, the ability to perform any management task assigned therein (production, marketing, human resources, finance, accounting...) and make and execute decisions.
- Preparation of diagnoses, with organization improvement proposals, incentive plans, and activities specific to human resources (job analysis and appraisal, hiring, compensation, career development, etc.).
- Marketing techniques and tools to meet consumer needs and/or always wishes.
- Investment analysis and planning, foreseeing expectations, interrelations, and financing. Management and control of the company's financial plan.
- Economic-financial information (accounting statements) and its legislation.
- Relevant economic sources of information and contents. Preparation of data obtained.
- Assessment, based on relevant information records, of a company's situation and foreseeable development.
- Advice on specific business and market situations.
- General company or functional area management projects.
- The national and international economic environment where the company operates, especially in Spain and Germany.

Professional opportunities

- Management, advice, and consulting for all type of organizations (public or private, for-profit or non-profit) in Spain and Germany.
- Production, purchasing, or logistics.
- Human resources.
- Financing and investment.
- Sales or marketing.
- Accounting.
- Teaching and research.
